**Office Improvements.**  
A great many improvements are being made in our town at the present time and notably among them is the modern improvement in dentistry being used by Dr. S. F. Killingsworth. Dr. Killingsworth has put in a water motor for running his engine, thus being able to do faster and better work. He has added a fountain spittoon, electric fans and electric lights, thus making it possible to work at night and in warm weather. All of these improvements add greatly to the comfort of the patient, doing away with a great deal of the discomforts of dental work.

God is all to thee; if thou be hungry, he is bread; if thirsty, he is water; if in darkness, he is light; if naked, he is a robe of immortality.

The great vitalizing element that gives power to both faith and duty is the living God with his personality and character, and the possibility of holding actual communion with him. The glory of religion lies in the reality of the good God.

**READY FOR BUSINESS.**  
**READY TO LEND YOU MONEY.**  
**READY TO RECEIVE YOUR DEPOSITS.**

**Opened All Day. Accommodations dispensed Every Hour.**

Special attention given to small depositors. This bank, as its name implies is the people's bank. Deposits in any bank is the safest thing on earth. There is scarcely a possibility of loss. All the stock of the bank is bound for it. Then, don't do a foolish thing in trying to keep your money in cracks and granules about your house, where it may be considered as a premium to thieves. Men have lost money in stockings, and hair trunks have been carried away. Bureau drawers and great wooden chests, with padlocks on them, have been robbed. Good natured men, with ready cash, have been known to lend their earnings to the wrong man. Men have been known to lose money in all the pursuits of life. Women have been known to place their estates, like their hands and hearts, in the keeping of the wrong man, but who ever heard of a depositor in a bank losing his money?

As the law now stands it is almost impossible for any bank depositor to lose his money. Around the depositors money is placed the best safe-guard that human skill, or human ingenuity can devise. Nothing on this earth is safer than money in a bank. And if you make it a rule to put away a little of your earnings as you receive them, you will be sure to become rich, and in saving your earnings, you will learn how to do when you are rich.

In the Savings Department, one per cent. is paid quarterly, or, if allowed to remain, interest is compounded quarterly. Begin now to lay by a little money, and in a little time you will realize the pleasure of having a bank account. The fact of having money at your command at any moment is worth many times as much as the interest. The right way to do is to realize the pleasure of having a sum of money, ready for any purpose.
